

Adjustable Mounting Stand

Height Ranges

30-40"
40-50"

Construction

Welded steel, powder-coated

Operation

Single crank handle adjust

Features

Locking swivel casters
Pedestal Feet

Other

Multiple mounting hole positions

Designed with mobility and versatility in mind.

The **Standard-Duty Model** offers two height ranges to choose from, 30-40" and 40-50". Both include locking casters. Multiple hole patterns on the top plate allow for mounting of equipment including, friction feeders, vacuum transports, and much more.

The Heavy-Duty Model design is also offered in the same height ranges as the standard-duty model. It is ideal for mounting belted conveyors, pick & place feeders, and more.

The simple design allows you to easily adjust the height simply with the turn of a crank handle.

The welded steel construction of all Mounting Stand models will provide durable, dependable, and long lasting operation for years of service.

Flexible mounting platform for XM-Series Feeders

Roll-in / roll-out capabilities for Vacuum Transport Conveyors
