

Superior Paper Handling Solutions, Inc.

Inline Batching Tray

Ideal for inline batch counting

Simple, bolt on attachment to most flighted infeed type conveyors

Easy to adjust for product changeovers

Minimum Product Size
4" x 4" (other sizes available)

Maximum Product Size
12" x 12" (other sizes available)

Accumulation Thickness
Up to 1/4" (other thicknesses available)

The NEW Inline Batching Tray was designed to help customers accumulate batch counted products in a neat stack inline on the flighted infeed conveyor. *No more hand counting! No more scale weighing! No more spearing! No more "messy" stacks!*

Designed to easily fit to most flighted infeed conveyors, this simple design allows inline batch-counting of products up to approximately 1/4" thickness.

Easily adjusts with conveyor paper rails to accommodate a variety of product types and sizes and comes standard with 2 sets of landing trays.

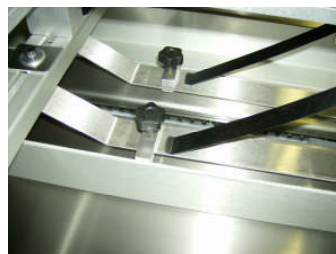

Perfect entry level batch accumulating solution!

Simple adjustments make the Inline Batching Tray easy to use and product changeovers are quick thus maximizing up-time.

Shown with XM-1 Batch Count Feeder

Adjustable stops for different product lengths
