PAPER HANDLING SOLUTIONS

SPECIFICATIONS:

Material Size: Minimum...2"W x 3"L Maximum...12"W x 12"L

Utilities: 115/230vac, 6 Amps, 60/50Hz

Material Thickness: Minimum - .003" Maximum - .750"

Controls: Easy to use push-button operation featuring:
 Jog, Manual Cycle, Illuminated Stop, Illuminated Reset,
 Illuminated Ready Indicator, Batch-Count, Continuous Feed,
 Error-handling Enable/Disable Switches

Features, Advantages, Benefits

Bi-directional Rotating Separator Rollers	Uniform wear, decreased maintenance	Increased uptime and efficiency
Adjustable Discharge Angle	Dispense products flat or at an angle	Decreased material control setup – Increased up time
Robust Construction	Durable, long lasting	Years and years of use
Single, wide feed belt w/ polyamide traction liner	Consistent product feeding, no slipping	Increased throughput without added maintenance
Batch-Counting	Increased versatility	Maximize return on investment
Push-button Controls	Easy to learn and operate	Doesn't require dedicated operators
External Interface Connection	Easy integration to other equipment	Increased System efficiency
Spring-loaded Hold Down	Decreased changeover time	Run more jobs in less time
"Miss" Detect	Ensures correct count per cycle	Decreased errant packages / costs
Great Value	Less investment vs. competition	Quicker return on investment
