- & more!

The Xtreme XM Series delivers the most versatile and highest quality feeding solution to generate superior ROI, all while reducing touches and maximizing productivity!

With a sleek design and compact footprint, the Xtreme XM-1200 series delivers greater performance in high-speed batch-counting, one-shot and continuous product feeding applications for inline use with shrink-wrapping and polybagging or individual offline batch counting. Available in multiple configurations, add one or more XM-1200s inline for batch counting and collating applications. The very compact footprint makes this solution easily integrated to maximize productivity and generate superior ROI. Simply mount the XM-1200 to a Superior-PHS rolling stand for use throughout the entire production and fulfillment area.

Available Configurations

- XM-1200C (Continuous)
- XM-1200D (One-shot / Continuous)
- XM-1200BC (Batch-count, One-shot, Continuous)

Touch-screen interface, manual controls, and system I/O Interface
