

Choose from the widest range of high-performing and robust automated solutions on the market for feeding, dispensing, inserting, batch counting, kitting, collating, literature fulfillment and coding solutions. Hundreds of standard configurations with flexibility to custom configure a system to meet your unique requirements. As the chosen supplier to e-commerce, fulfillment, printing, and product packaging companies, we provide the most robust and productive solutions with the greatest value. **Superior Performance...Superior Value**

FEEDING / DISPENSING

VERSATILE, ROBUST, MODULAR

Earn real value and maximum productivity. The XM and XME family of feeders are powerful workhorses built for 24/7 operation with the most standard operating features making them the best value on the market. Available in One-Shot, Continuous or Batch-Count operation.

When speed and maximum throughput are paramount, the Xtreme Ultra Series (XM-20U) delivers the fastest servo motor technology on the market.

When a compact footprint machine is required, the CX-Series with its small footprint, takes up less space and is economically priced.

XME-900

Up to 300 ft/min
Products
2"x2.5" up to 9"x9"

XM-1200

Up to 350 ft/min
Products
2"x3" up to 12"x12"

XM-12

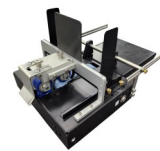

Up to 400 ft/min
Products
2"x3" up to 12"x12"

XM-20U

Up to 750 ft/min
Products
2"x3" up to 20"x12"

CX-6

Up to 200 ft/min
Products
3"x2" up to 6"x7"

CX-9

Up to 200 ft/min
Products
2"x3" up to 8.5"x12"

BATCH COUNTING / ACCUMULATING

INCREASE THROUGHPUT WITH BATCH DROPPERS

The complete line of droppers include everything you need to collect, bundle stack, and/or jog your product inline for the finishing processes or offline batch counting.

With seamless, integration to the feeder product line, most droppers can be added at purchase or later down the road should your application requirements change.

BT-Tray

Products
3"x5" up to 20"x18"

BD Dropper

Products
3"x3" up to 12"x12"

SD & DSD Dropper

Products
3"x3" up to 6"x9"

RSW Dropper

Products
2"x3" up to X"xX"

ARD Dropper

Products
2.5"x3" up to 30"x12"

CONVEYOR SOLUTIONS

L-16 Flighted Infeed

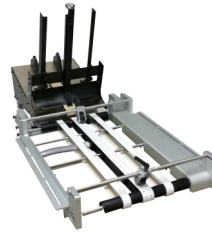

Products up to 16" wide (L-16)
and up to 26" wide (L-26)

Bulk Product Loader

Add stacking capacity to XM
Feeders. Multiple lengths
available

Vacuum Transport

Available in 2' length. Also
available in a 4' console
base design

MODULAR CONVEYING SOLUTIONS

Designed with modularity in mind, Superior-PHS conveyors meet the spec of a wide variety of conveying applications. Whether it is a flighted infeed, bulk loader, or vacuum transport your processes will become more efficient.

KITTING / COLLATING

Right-Angle One-Shot

Inline One-Shot

Batch Counting

E-Commerce Pack Stations

KITTING / COLLATING SOLUTIONS

One-shot kit fulfillment and batch count collating systems. Simple to complex systems at economical prices. Easily integrate to banders, wrappers, and more for a complete packing system.

TURNKEY SYSTEM MODULES
