Model CX-9BC

The CX-9BC delivers the most versatile and highest quality counting solution for over 2,000 types of products. It works extremely well for literature, documents, Mail-In Ballots, gift cards, envelopes, items of value, and much more.

Extremely economical, with a sleek design, compact tabletop footprint, and built-in total piece counter, the CX-9BC delivers unmatched performance for piece count in any operation.

The CX-9BC will accurately count and provides an easily readable operator interface screen. You can utilize the CX-9BC with your own collection totes and trays, or it can come with the optional built-in, adjustable catch tray.
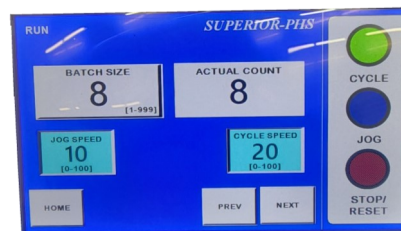

You can also utilize the optional SmartCount Edge module to provide a secondary count validation and stream the count data to your in-house PC or server for data collection, analysis, and reporting.
