

The Xtreme XM-9TC delivers the most versatile and highest quality feeding solution for batch-counting trading cards to generate superior ROI, all while reducing touches and maximizing productivity!

With a sleek design and compact footprint, the new XM-9TC delivers greater performance in one-shot and batch-counting applications for inline use with shrink, foil, and poly-wrapping systems. Engineered for Trading Cards, CR-80, ID, and Promotional cards, as well as other small format products. The very compact footprint makes this solution easily integrated to maximize productivity and

generate superior ROI. Batch count any number of cards up to .75" total stack height into the pneumatic controlled dropper tray. Easily integrate to most any lugged conveyor. A convenient 36" tall hopper makes loading easy and less frequent. Speed following is included to ensure every pocket of the conveyor is filled, accurately.
