Print/Label Systems
Camera/Vision Systems
& more!

The Xtreme XM Series delivers the most versatile and highest quality feeding solution to generate superior ROI, all while reducing touches and maximizing productivity!

With a sleek design and compact footprint, the new Xtreme XM-1200 series delivers greater performance in high speed batch counting, one-shot, and continuous product feeding applications for inline use with shrink-wrapping and polybagging, or individual offline batch counting. Available in multiple configurations, add one or more XM-1200's inline for batch counting and collating applications. The very compact footprint makes this solution easily integrated to maximize productivity and generate superior ROI. Simply mount the XM-1200 to a Superior-PHS rolling stand for use throughout the entire production and fulfillment area.
