Plastic Cards

Envelopes

Booklets
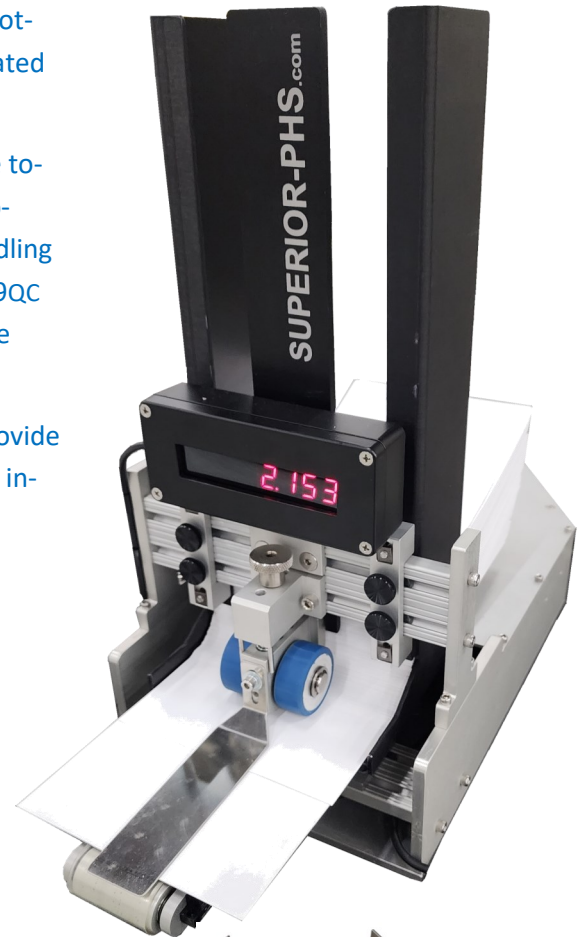

Direct Mail

And more...

Extremely economical, with a sleek design, compact tabletop footprint, and built-in total piece counter, the CX-9QC delivers validated performance for piece count verification in any operation.

The CX-9QC will accurately count and provide an easily readable total count for a wide range of products. The CX-9QC can also sub-batch (i.e. in 25's, 50's, 100's, etc.) the products for ease of handling while providing an accurate total count. You can utilize the CX-9QC with your own collection totes and trays, or it can come with the optional built-in, adjustable catch tray.

You can also utilize the optional SmartCount Edge module to provide a secondary count validation and stream the count data to your in-house PC or server for data collection, analysis, and reporting.

Optional data streaming counter available for capturing the total counts with time and date stamps.
